Invent. Learn;
}

Melbourne
Monday 11th September

Time
8.30am – 4.00pm
(Reg. from 8.00am)

Venues
Milanos Brighton
4 The Esplanade,
Brighton, Vic 3186

Cost: Group Discounts Available
Earlybird: \$286 inc GST
Normal: \$308 inc GST
Includes: 6.5hr workshop, morning tea
and lunch

Workshop Outline

In the workshop participants will both experience hands-on practical STE(A)M activities and will be taken through a step by step process to plan STE(A)M units using the State's Design and Technology Curriculum.

[Flow of the workshop](#)

The Importance of STE(A)M and Design Thinking

The day will begin with an introduction to world we are preparing students for. Through videos and discussions teachers will explore and identify the skills, dispositions and knowledge needed to operate successful in a fast changing global landscape. With this background as a springboard, participants will then explore and discuss the importance of STE(A)M, design thinking and the design process, and experience a short hands-on activity where they have to use design thinking to solve a problem.

Experiencing STE(A)M - Primary

In this session participants will experience a hands-on STE(A)M challenge. The intention is to highlight importance of collaboration, the iterative nature of the design thinking process and the role of teachers as facilitators. Participants will gain clarity about what elements lead to authentic, engaging STE(A)M activities and what approaches and models work and why.

Planning with Design and Technology Curriculum - Primary

This part of the day will be about exploring what you could do differently and simply in your curriculum and what changes you could make to address the Technologies curriculum. It will address the common teacher belief that STEAM is an extra add on and show how to authentically adapt what you are already doing to address the curriculum requirements. Teachers will have an opportunity to plan against the Technologies Curriculum and leave with a raft of ideas of how they can begin to infuse it into the current school curriculum.

About Dr Adrian Bertolini

Adrian is the Founder & Director of Learning of Intuyu Consulting. With degrees in Computer Science and Mechanical Engineering he has a strong background in not only the theoretical underpinning of STEM and Coding but its practical application. He is one of Australia's foremost thought leaders on practical and real education that empowers and develops resilient, independent learners. He is constantly acknowledged for being an engaging, passionate and knowledgeable speaker, facilitator and coach.

REGISTRATION FORM

Practical Steps to STEAM for Primary Teachers

I/we will be attending:
