Workshop Outline

In the workshop participants will not only be taken through a step by step process to plan STEAM and Coding units based on the Technologies Curricula but will also participate and experience a range of practical STEAM / Coding activities that can be run at your school.

Agenda

Day 1: STEAM and Coding Experiences

The first day will be experiential where participants will participate in hands-on STEAM and Coding activities that can be run at various year levels. Participants will be involved in:

- Hands-on Design and Build exercises - linked to the Design and Technologies curriculum
- Practical exercises leading to understanding the fundamentals of Programming - linked to the Digital Technologies curriculum

The intended outcomes for participants include:

- Clarity about what elements lead to authentic, engaging STEAM/ Coding activities
- Understanding what approaches and models work and why

Day 2: STEAM and Coding Planning

The second day will focus on both broad and detailed planning to embed STEAM and Coding into your school. Participants will:

- Explore what practical planning steps can be put in place to integrate STEAM and Coding into the everyday operation of a school
- Deconstruct the Technologies Curriculum to gain clarity about what it is asking
- Create a spine of unit that you can flesh out and run at your school

The intended outcomes for participants include:

- A concrete plan for the implementation of STEAM and Coding
- A spine of a unit that addresses the Technologies Curriculum
