

Igniting STEM Learning Professional Learning 2024

Developing learners' mindset maps

Wednesday, 7 August 2024 4.00pm to 5.00pm (AEST) Webinar - 60min

Mindset is the collection of thoughts and beliefs about how the world works that shape individuals' experiences of reality. It shapes the way an individual habitually thinks, feels and acts. Think of it as the operating system for a mind – working below the surface, controlling everything that happens. A well-crafted STEM program goes beyond imparting knowledge; it shapes problem-solvers, creative thinkers, and curious minds). As Yeager and Dweck's (2020) research has shown, learner mindsets can be nurtured through explicitly creating supportive learning environments.

In this webinar we will explore the idea of mapping a progressive sequence of mindset mottos with the aim for students to internalize a learner's mindset over the period of schooling. You will have the opportunity to collaboratively unpack a mindset motto into norms, agreements, and practical strategies therefore learning how you can do it back at your school.

Designed for Primary and Secondary School teachers and leaders **Registration fee:** \$50.00 inc. GST per person (discounts apply for school groups of 5+)

How to attend / register

- **Email** Rachel at Intuyu Consulting: rachel@intuyuconsulting.com.au OR **Book online** (https://intuyuconsulting.com.au/developing-learners-mindset-maps-webinar/)
- Specify the session you would like to register into, number of participants + your contact details.
- You will receive a confirmation email and invoice.
- Zoom link, instructions and materials will be sent upon payment of invoice or sooner if a
 purchase order number is provided.

About Dr Adrian Bertolini

Adrian is the Founder and CEO of Intuyu Consulting Pty Ltd – an educational consultancy that works with teachers, school leaders and schools to unleash learning and leadership. His journey began as a curious kid growing up in Dandenong and led him to being an engineer and Senior Lecturer in Aerospace Engineering at RMIT University. His career has taken him around the world including spending time in the USA exploring leadership in innovative tech companies, developing students as community leaders as part of the ruMAD program, and working across Australia with students, teachers and school leaders in primary, secondary and tertiary environments. He spent 10 years as a volunteer leading and coaching in transformative leadership programs and has a passion for nurturing and growing community leadership. Adrian is the author of 'Igniting STEM Learning' a groundbreaking resource for teachers and leaders.
