

Building your confidence & capability as a Middle Leader

Tuesday, 29 October 2024

3.00pm to 5.00pm

Webinar

Effective middle leaders have three key foundational qualities: they are clear about the compelling purpose that guides them as an educator, they empower and enable each member of their team to grow as professionals, and they have developed their capacity to strategically think and plan to achieve desired goals.

If you are a Learning Specialist or Leading Teacher and want to know how to continue to progress your leadership journey, this course is for you!

In this webinar you will explore the following:

- Being a transformational leader
- Creating your own compelling purpose
- The leadership dispositions as articulated in the Academy Leadership Excellence Framework
- Strategies to empower and enable each member of your team
- Structures to support collective teacher efficacy and to think and plan strategically

This webinar will provide you with the foundation required to apply for the Victorian Academy of Teaching and Leadership's Create Course to continue your leadership development.

Audience: This course is for middle leaders who want to continue their leadership journey. It is aimed at those in formal leadership roles, such as Learning Specialists and Leading Teachers.

Registration fee - 2 hour webinar

AEU Victoria Members: \$100 inc. GST / non-AEU Member: \$120 inc. GST
